12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use. Water applied for herewith will be commingled with water from 9 other concurrent basin #73 applications, & subsequent applications in Nevada. Water treatment may be required, & extensive groundwater hydrology & test drilling by GHC is anticipated to confirm source suitability & to insure proposed beneficial use will not damage others. Direct pipeline transmission to the Washoe Front is anticipated with exchange options on the lower Carson-Truckee System possible-subject to drought year water being available up-stream, in-stream beneficial uses, & TCID. Total project cost will be in the order of \$75,000,000 for annual consumptive use of 20,000 AF. All applications are on BLM land & use permits are in progress.
